

## Year 10 Work Experience

### Student Survey 2021

108 out of 174 (62%) students participated in Year 10 Work Experience in July 2021. Despite being a much disrupted year and a number of our usual placement businesses being unable to support our work experience offer this year, we were delighted by both the enthusiasm and commitment to the opportunity of work experience by our students this year. Out of all 108 placements found, only 4 were cancelled at the last minute due to Covid-19.

At the end of the summer term (2021) students were asked to complete a survey to provide us with some feedback on their Work Experience:

- 94% of students enjoyed their placement
- 78% of students agreed that their confidence had improved as a result of participating in work experience
- 74% of students agreed that they had learned new skills as a result of participating in work experience
- 55% of students agreed that the placement they experienced also interests them for the future
- 75% of students agreed that they felt well prepared for work experience
- 96% of students agreed that they understand the importance of doing work experience

Students that did not take part in work experience in 2021 were asked why they did not take part. 44% of these students said that they tried to find a placement but were unsuccessful, due to Covid restrictions this year.
